Made using Studio 180 Design's Square Squared®, V Block®, Corner Pop® & Rapid Fire® Lemoyne Star Tools & Sidekick & High/Low Technique Sheet

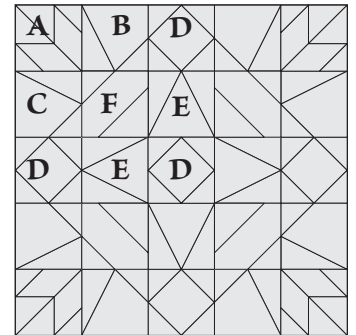

BlockBusters 2023 #84

Difficulty: ★★★★★

Everything you need to know to make the units required for this block can be found in the instructions that came with the **Square Squared®**, **V Block®**, **Corner Pop®**, and **Rapid Fire® Lemoyne Star** tools and the Sidekick & High/Low technique sheet. There are charts, step-by-step graphics, and directions. Use the charts to find the information you need for the finished size of the units you want to make, and follow it through to find what you need to cut to make those units. Then work your way through the instructions.

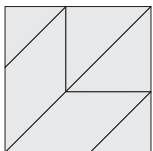

There is a lot going on in this block, and you will need to pay attention as you make each unit. When making your Lemoyne Quadrants, work your way through the Lemoyne Star instructions with your chosen fabrics to step 14, where you sew your pairs of star points together. Once you sew your pairs together, you will trim the Lemoyne star quadrants using the **Tucker Trimmer® I** to the size designated in the chart. Remember, you have already trimmed the “center point” sides of the Lemoyne Quarter, so the only trim you need to make is on the “outside edge” sides.

When making the High/Low units, be sure to pay attention to the position of your base square when starting. You need to make 4 Right units and 4 Left units. The easiest way to do this is to put the squares wrong sides together before cutting. This is a great block to play with color! It will be fun to see how your block turns out.
